#### "TAXED INTO BOLSHIEVISM."

The following dispatch from Washington, clipped from the Chattanooga News, (dem.) is significant:

Washington, Nov. 28.—Calling on congress to turn its attention to the immediate needs of the American people, Senator Borah, of Idaho, republican, one of the "irreconcilables" in the fight against the league of nations, outlined in a formal statement tonight a program for the coming session.

Passage of the resolution to declare peace, legislation to "bring order out of chaos in our transportation system," laws to enforce governmental economy and check extravagance, which he characterizes as "incredible," a check on profiteering, return of American troops from Russia and a restoration of the peace-time powers of the government in distinction from wartime powers being maintained were the principal measures Senator Borah advocated.

A declaration of peace, Senator Borah declared, "was desirable more for psychological reasons than for anything else," adding that "the advocates of the league continue to harp upon the proposition that we technically are at war in order to disturb business and keep it restless and unsettled."

"One of the greatest and best railroad systems in the world has been wrecked thru incompetency and politics," Senator Borah's statement charged, and in his attack on governmental expenditures he declared "the people are literally being taxed into bolshevism."

We dislike the term "bolshevism," and have ever disliked it as not a fitting term or designation to enter into American politics or government. Senator Borah in his statements strikes a truth, and if it is not "bolshevism" what is it? Someone rise up and tell us.

We should like to see a man sent to represent this district in Congress, who is from the ranks of the workers, one who knows what it is to work with his hands, and who, therefore, should have a kindred feeling for those who labor.

That man lives twice who lives the first half well.—Harrick.

#### BIG MONEY. ISN'T IT?

At the beginning of the coal strike statement was made that the miner averaged \$700 a year, gross earnings. Now Dr. Garfield, fuel administrator, states that the average for 1918 was \$1550.56, or \$6.18 per day, gross, we suppose. From these figures must be taken bank expenses, which are heavy. Assuming there were no bank expenses, at a 33c dollar, the miner could buy just \$2.06 worth of supplies for himself and family. Assuming the average family is five, there would be 41c per day for each one on which to exist, shelter, food and clothes. Big money, isn't it?

Mr. Carranza keeps on slaughtering Americans safely in his own country. After a while he may possibly get nerve enough to send his army across the border and try it on this side. And he was the choice of President Wilson for president of Mexico, which seems to have been merely another case of mistaken identity.

We suppose that our Pan-American Alliance won't permit we'uns to go inter Mexico an' whip the Mexican duet, an' thus settle ther ownership uv thet unfortunate kentry. Wonder if the Pan-Am-A. wud permit Mister Koroanza ter attempter anxt us.—Pig Hollow Scout.

## NOT SICK AND NOT WELL

In The Peculiar Situation Described,  
ZIRON Iron Tonic Is Found Helpful.

It often happens that the organs of your body do not function properly, for some reason or other. There is nothing really wrong, and you are not sick. But certainly you are not well, either.

If you are in such a condition, read what Mr. Wm. M. Bass, Rt. 1, Crossville, Ala., did, and try Ziron Iron Tonic, as he did. Mr. Bass says: "I am nearly always pretty well and strong and do not need much medicine excepting for headaches. But, recently, when I had not been feeling very well for a while, I knew I needed some sort of medicine to make me all right. I took Ziron and it made me strong and well again."

Ziron puts iron into the blood, and, by doing this, may prevent a serious attack of illness, which you are liable to "catch" at any time if your system is weakened or your condition below par.

Ziron has well proven its value as a tonic. Try it when you feel the least bit out of sorts, not quite as good as usual, tired and weary.

Your druggist sells Ziron on a money-back guarantee.

## ITEMS FROM MINING CITY

(From Our Special Correspondent)  
"Would you live in the land of 'Sweet Content'?"

Tis easy to know the way.  
You go by the road of a happy heart,  
With love as a comrade gay.  
When once you are there  
Your frowns take their flight,  
The "blues" never come your way,  
And everyone's glad  
For the joys they've had.  
"Our ills might be worse," they say—  
The rich and the poor may travel along  
And land in the selfsame place,  
No one is debarred who will sing a song,  
And carry a smiling face."

**Catarhal Deafness Cannot Be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc.
